

## Enquiry to THL Biobank

Before sending the form, familiarise yourself carefully with the THL Biobank website ([www.thl.fi/biobank](http://www.thl.fi/biobank)), which provides general information on the samples stored in THL Biobank, the data related to them and the ongoing biobank research projects. If you would like to receive more detailed information, you can use this form to submit an enquiry.

You can send the signed form free of charge to the following address:

**THL Biobank, Tunnus 5022238, 00003 Vastauslähetys.** Your signature will confirm your identity on the enquiry form. THL Biobank will check the address details of the person submitting the enquiry from the Digital and Population Data Services Agency before sending a written reply.

Enquiries regarding items 1–4 are free of charge. There may be a charge for items 5–6 and other detailed information requests. The fee corresponds to the costs resulted by the detailed investigation, at most.

Sample donor's name

---

Personal identity code

---

Street address

---

Zip code

---

Town/city

---

Telephone number

---

Email address

---

Country if not Finland

---

Name of the study in  
which I have participated  
(if known)

---

I have given written biobank consent to THL Biobank

yes

no

I do not know/ remember

**I would like to have the following basic information about my samples and data**

(tick the items that you want information about):

- 1. Does THL Biobank have samples collected from me or data on me?
- 2. From where has THL Biobank received my samples and data?
- 3. On what grounds have my samples been transferred to THL Biobank?
- 4. To what kind of biobank studies (topic) has the study material to which I am a part of been used for and where (country)?

**In addition, I would like to enquire about my samples and data in more detail**

(there may be a charge for providing this information):

- 5. To what kind of biobank studies and where have my samples and data, in particular, been provided or transferred?
- 6. The information related to my health, determined from my samples in biobank research studies, and explanation of the significance of the results?

**Please note:** THL Biobank will release results produced in the scientific research only in exceptional cases as the results defined at individual level often do not meet the quality specifications set for the activities in clinical health care.

If you ticked item 6, specify the desired information:

In addition, I would like to know:
