

Consent for cooperation between student welfare services

Student welfare services include school and student health care and the services of a school social worker and a psychologist. The support required by the pupil or student can be organised best through cooperation between these services. Cooperation can be carried out by requesting or giving advice, disclosing the information needed in another service in writing or orally, or by meeting the pupil/student together.

With this form, the pupil/student or their guardian gives consent for cooperation and the exchange of information between the student welfare services in dealing with the matter defined below.

Party requesting and processing the consent:

Pupil's/student's name:

Personal identity code:

Consent applies to the following student welfare matter:

I give permission to the following student welfare services in the school or educational institution to cooperate in dealing with the above-mentioned student welfare matter concerning myself/my child and to disclose the necessary confidential information to each other for this purpose.

- school or student health care (public health nurse and physician)
- school social worker service
- psychologist service

The agreement is in force for as long as it takes to deal with the matter, but it is possible to cancel it at any time by informing the party that requested the consent. The pupil/student or guardian is kept informed about which professionals are dealing with the matter and what information has been disclosed.
