

## Health 2011 survey

### CONSENT

I have read the invitation I have received and the enclosed description of the survey and have acquainted myself with their explanation of the purpose and content of the survey. The content of the survey has also been explained to me verbally, and I have received satisfactory answers to my questions about the survey. I am aware that my participation is voluntary and that I can at any time revoke my consent, whether during the survey or after it. I am aware that the findings obtained through my participation in the survey will be compared to information collected in the earlier Health 2000 survey.

1. I agree that the information I provide on the survey form, the findings of my check-up and the samples taken from me may be used for medical and public health research.

Yes                                       No

2. I further agree that the samples taken from me may be used later for research on endemic diseases and the heredity of their risk factors.

Yes                                       No

This consent has been made in two identical copies, both with an original signature, one copy to be left with the examinee and the other with the research team.
