3159 Oligophrenia	0	1	2	0	1	0	1	0	1	0	1	0	1	0	1	0	1

Age of diagnoses from other sources 1 Old 2 new

D. Final diagnoses

No significant psychiatric diagnoses 0

	Certainty of diagnosis		
	No	Probable	Certain
2909 Dementia senilis et presenilis	0	1	2
2959 Schizophrenia	0	1	2
2969 Affective psychosis	0	1	2
2999 Other psychosis	0	1	2
3000 Anxiety neurosis	0	1	2
3002 Phobic neurosis	0	1	2
3003 Obsessive-compulsive neurosis	0	1	2
3004 Neurotic depression	0	1	2
3009 Other neurosis	0	1	2
3019 Personality disorder	0	1	2
3039 Alcoholism	0	1	2
3049 Narcomania	0	1	2
3099 Other psychiatric diagnosis	0	1	2
3159 Oligophrenia	0	1	2

Certainty of case 0 no 1 probable 2 certain

Age of diagnosis 1 old 2 new

Need for treatment/attention 0 no 1 probable 2 certain

Implemented treatment:

General practitioner level 0 no 1 yes

Medical specialist level 0 no 1 yes

Sufficiency of treatment 0 no 1 insufficient 2 sufficient

Need for new measures:

0 no need

1 need for general practitioner

2 need for medical specialist

3 need for check-up visit due to finding

II ASSESSMENT OF FUNCTIONAL CAPACITY

A. Assessment of work ability

(in current or most recent previous paid employment)

Full work ability	0
Slightly reduced work ability	1
- occasional harm in regular work tasks	
<u>or</u>	
- constant harm in more difficult or complicated work tasks	
Considerably reduced work ability	2
- constant harm in regular work tasks	
<u>or</u>	
- unable to perform more difficult or complicated work tasks	
<u>or</u>	
- long periods of unemployment	
Fully unable to work	3
Retired due to age or has not been in paid employment	8

B. Assessment of other functional capacity

Full functional capacity	0
Slightly reduced functional capacity	1
- occasional harm in regular functions	
<u>or</u>	
- constant harm in more demanding functions	
Considerably reduced functional capacity	2
- constant harm in regular functions	
<u>or</u>	
- fully unable to perform some more demanding function	
Near or full functional incapacity	3
- fully unable to perform some regular function	
Cannot be categorised	8
- reason:	

III A SUMMARY ON THE INDIVIDUAL LEVEL OF FINDINGS OF DISEASES CAUSING HARM

No diseases causing harm 0

Mental health disorders, most important diagnoses:

IV ASSESSMENT OF NEED FOR LONG-TERM OR PERMANENT TREATMENT/CARE OR CHECK-UPS

Need for doctor's appointments

General practitioner

0 no 1 yes, not in treatment 2 yes, in treatment

Medical specialist

0 no 1 yes, not in treatment 2 yes, in treatment

Family members sufficiently taken into account in the treatment 0 no
1 yes

The level of examination or treatment has been mainly

- 1 primary care
- 2 primary and specialised care
- 3 specialised care

The examination or treatment has been mainly organised in

- 1 outpatient care
- 2 a hospital
- 3 other institution

V ASSESSMENT OF OTHER (NON-LONG-TERM) CURRENT NEED FOR EXAMINATION AND TREATMENT

No need for other examination/treatment 0

Doctor's appointments

0 no 1 yes, not in treatment 2 yes, in treatment

Need for taking family members sufficiently into account

0 no 1 yes
